- **INTERPERSONAL & COMMUNICATION:**
  - Empathetic Communication
  - Serving Diverse Populations
  - Stakeholder Management
  - Public Speaking
  - Virtual Group Facilitation
- **PROGRAM & OPERATIONAL SKILLS:**
  - Project Management
  - Data Informed Decision Making
  - Microsoft/Google Workspace
  - Database Management
  - Learning Management Systems
- **TECHNICAL EXPERTISE:**
  - Data Analytics (Python, R, SQL)
  - Web Development (HTML, CSS, JavaScript)
  - GIS (ArcGIS Suite)

EDUCATION

OREGON STATE UNIVERSITY
BS, Fisheries and Wildlife Sciences
Ecosystem Analytics Specialization
2022

UC DAVIS
Specialization,
Geographic Information Systems (GIS)
2021

MENTORING EXPERIENCE

'FIRST'ROBOTICS COACH
2023 - Present

- Coach and mentor a team of elementary school students from varying age groups, backgrounds, and skill levels in STEM concepts, fostering a positive, inclusive, and hands-on learning environment.
- Guide students through the fundamentals of programming and engineering design, adapting my coaching style to meet diverse learning needs and build confidence.
- Develop and facilitate group activities focused on problem-solving, teamwork, and goal setting.

Connor Shelly

CONNOR.SCOTT.SHELLY@GMAIL.COM
(248) 872-6208 | HOWELL, MI 48843

GIS and data analytics professional with a passion for leveraging spatial data to solve complex environmental and logistical problems. I specialize in using the ArcGIS suite, HTML, CSS, JavaScript, and Python to manage, analyze, and visualize geographic information, making it accessible to diverse stakeholders. I excel at transforming data into actionable insights and am capable of supporting data informed decision making through web-based tools.

EXPERIENCE

WEB DEVELOPER/GIS SPECIALIST GLANSIS, MI SEA GRANT
Jan 2024 - Present

- Collaborate within a diverse team to inform government agencies, provide resources to the general public, and support education about aquatic nonindigenous species.
- Deliver research on complex geospatial data to diverse audiences at regional and international conferences.
- Execute spatial analyses with the ArcGIS Suite to support decision making for government agencies, contributing to technical reports and expert workshops.
- Develop and maintain website and web-based tools using HTML, CSS, and JavaScript.
- Author scientific risk assessments and species profiles used as educational materials by government partners and the public.

DATA ASSOCIATE GLANSIS, MI SEA GRANT
Jan 2023 – Jan 2024

- Enhanced the online learner experience by managing data for educational products and providing technical support to improve web and GIS tools.
- Synthesized complex information from data analysis and literature reviews to produce accessible educational materials like species profiles and risk assessments.

ACCOUNT MANAGER SOCIAL EFFECT
Jul 2018 – Dec 2022

- Coached a diverse portfolio of clients on social media marketing, providing personalized guidance and motivation to help them achieve their engagement goals.
- Translated complex data into accessible informational products using GIS software, enabling non-technical users to make strategic, informed decisions.
